

The New
MCFRS ALS
and Airway
Bag Inventory

The New Red Bag:

- Much of the equipment is broken down into modules.
- In the next few slides, you will find a brief overview of the inventory for the new bags/modules.
- A full copy of the inventory can be found on Quicklinks:

Quicklinks → Operations Division → EMIHS Section →
Unit Inventories and Equipment References
- Any equipment needs can be obtained from EMS Logistics.
- As of this writing the existing oxygen bags will still need to be used. Oxygen Sleeves will be coming soon.
